In working with Whitehead, each client receives our unparalleled depth and breadth of product lines, our comprehensive product knowledge, and our first-rate customer service. *Now that's powerful.*

ELECTRIC UTILITY TRANSMISSION & DISTRIBUTION

TERRITORIES SERVED

Whitehead provides Transmission and Distribution solutions to utilities that serve Georgia, Alabama, Tennessee, Kentucky, Mississippi, and Florida.

A UNIQUE APPROACH

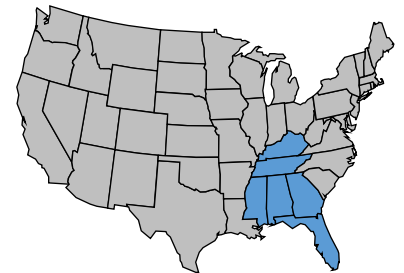

No two utilities are alike

You have options when it comes to utility transmission and distribution equipment and services. Options about whom to buy from, when to buy, and at what price. That's when a little good advice and experience are needed.

We understand no two utilities are alike. Your needs change from day to day. Whitehead is proof positive that cutting-edge electrical products and quality service through a solutions mindset deliver the best results, each and every time.

Known throughout the industry for a stellar track record and rich history, the Whitehead team is composed of the brightest minds in the business. Our solutions are specifically tailored to meet your needs – from the first phone call to final implementation.

Forward thinking, proactive, and experienced are a few words our clients use to describe us. Improved energy efficiency, increased power reliability, and reduced operating costs are reasons why our customers keep coming back. Different from the norm? Absolutely, Whitehead *Intentionally Different*.
